

Functional Scenarios

Logical Scenarios

Concrete Scenarios

Level of Abstraction

The diagram consists of two teal-colored triangles. The top triangle is inverted, with its highest point on the left (under 'Functional Scenarios') and tapering to a point on the right (under 'Concrete Scenarios'). The bottom triangle is upright, starting at a point on the left (under 'Functional Scenarios') and widening to its maximum height on the right (under 'Concrete Scenarios'). Both triangles are outlined in black and separated from the header boxes by a thin red line.
